Bengaluru, India | [linkedin.com/in/saravanashruthesh](https://www.linkedin.com/in/saravanashruthesh) | github.com/mrshravan7-del | saravana@domain.com

PROFESSIONAL SUMMARY

Results-driven Operations and Process Analyst with approximately 2 years of experience driving operational excellence at global leaders including Walmart Global Tech and Toyota Motors India. Skilled in root cause analysis, process improvement, SLA compliance, data analytics, and AI-augmented workflows. Bridges the gap between technical data insights and practical business solutions. Experienced with Power BI, BigQuery, SQL, and AI productivity tools. Actively targeting Data Analyst and AI Generalist roles.

PROFESSIONAL EXPERIENCE

Resolution & Process Analyst | *Walmart Global Tech — Fortune 1 Company (~\$650B Revenue)* Feb 2025 – Present

Operations | Compliance | SLA Management | BigQuery | Power BI

- Managed payroll processing and operational workflows for a global workforce, maintaining high accuracy and SLA compliance across multi-region ticket queues.
- Conducted structured root cause analysis on payroll discrepancies and compliance ticket failures, implementing corrective measures to eliminate recurring incidents.
- Built and maintained SLA/CSAT dashboards in Power BI and BigQuery, enabling real-time decision-making for operations leadership.
- Coordinated UAT cycles for process updates, documenting SOPs and change governance artefacts for cross-functional stakeholder approval.
- Proposed and developed AI Support Co-pilot — a RAG-based real-time agent assistant providing KB article retrieval, transcript analysis, and performance analytics for Walmart's Associate Help Line (AHL).
- Built AI-Call-Auditor, an NLP-powered system to auto-evaluate sales and support call recordings for sentiment, compliance flags, and campaign KPIs.
- Developed SMS Paystub Assistant, an offline-first payroll access solution for non-technical and elderly employees via SMS-based interactions.

Marketing Operations Analyst | *Toyota Motors India — Leading Global Automotive Manufacturer* Jul 2024 – Feb 2025

Marketing Analytics | Power BI | MIS Reporting | Stakeholder Management

- Leveraged data analytics to track and report on marketing KPIs across regional campaigns, identifying optimisation opportunities and trend patterns.
- Developed MIS reports and interactive Power BI dashboards, providing leadership with real-time operational visibility.
- Collaborated with regional teams to ensure seamless execution of marketing operations and process adherence across multiple markets.

PROJECTS

ServeEasy — Hyperlocal Home Services Marketplace

- Three-app monorepo (consumer app, provider/captain app, admin panel) modelled on Zomato/Rapido with a 7–13% commission model.
- Stack: Flutter/Dart (mobile), Next.js 14 (web), Node.js/Express (backend), Prisma/PostgreSQL. Retrowave gradient UI with glassmorphism design system.

Walmart AHL AI Platform

- Post-call quality auditor and real-time agent copilot for Walmart's Associate Help Line, integrating with NICE CXone and MAX Agent.
- Two-tier LLM pipeline (GPT-4o-mini for Tier 1, Claude Sonnet for Tier 2), Redis Streams for session management, FAISS + sentence-transformers for KB retrieval.

Project SENA (Senior Expert Neural Auditor)

- Production-grade call auditing platform using FastAPI, MongoDB, Celery/Redis, and a three-stage LLM reasoning pipeline with QLoRA fine-tuning capability.

AI-Call-Auditor

- NLP-powered call auditing system auto-evaluating sales and support recordings for sentiment, compliance flags, and KPIs. Proposed 80% reduction in auditing SLA time.

Sign Language Recognition System

- Real-time hand gesture to text/speech converter using Flutter, TensorFlow Lite, optimised for mobile deployment for inclusive workplace communications.

CORE COMPETENCIES & SKILLS

Analytics & Reporting: Power BI, BigQuery (SQL), Advanced Excel, Google Data Studio, MIS Reporting, SLA/CSAT Dashboards

Operations & Governance: Root Cause Analysis, UAT, JIRA, ServiceNow, Process Documentation, SOP Drafting, Change Governance

AI & Development: Python, SQL, Flutter/Dart, Node.js, Next.js, FastAPI, RAG Architecture, LLM Prompt Engineering (Claude, GPT-4, Gemini)

Enterprise Tools: Microsoft Office Suite (Excel, Word, PowerPoint, Outlook), Google Workspace, Notion, Figma

EDUCATION

Bachelor of Computer Applications (BCA) — Major: Data Analysis *Surana College Autonomous, Bengaluru*

CERTIFICATIONS

- Google Advanced Data Analytics — Google, 2024
- Microsoft Power BI Data Analyst — Microsoft, 2024
- Google Data Analytics Professional — Google, 2023
- Google Prompting Essentials — Google, 2025
- Use AI as a Creative or Expert Partner — Google, 2025

LEADERSHIP & ACHIEVEMENTS

- Service Director, Rotaract Club (2024–2025): Led community initiatives and organised large-scale events, demonstrating strong project management and team leadership.
- Runner-up, College Hackathon (BI Dashboards): Recognised for developing an innovative and highly effective Business Intelligence dashboard under tight deadlines.
- Founder, PixelBloom Digital Agency: Independent digital agency delivering web and marketing solutions to clients across sectors.
